SKILLS

Programming Languages: Java

Frontend: HTML5, CSS3, JavaScript

Databases: MySQL

Tech Skills: Problem Solving, Technical Thinking, OOPS, DS, Advance Java

PROJECTS

Dementia Disease Detection (DDD) using MRI

Jan 2026 – Apr 2026

Deep Learning, CNN, Python, AI

- Designed a **deep learning system** using Convolutional Neural Networks to analyze MRI scans for early dementia detection.
- Automated **image preprocessing, model training, and validation** to improve reliability and efficiency.
- Achieved **high diagnostic accuracy** with a scalable architecture suitable for large-scale medical screening.

Smart Irrigation Assistant – AI in Agriculture

React, HTML, CSS, JavaScript, Firebase

- Developed a **real-time soil moisture monitoring** system with live dashboard visualization.
- Integrated **Firebase** for real-time database updates and secure user authentication.
- Implemented **irrigation ON/OFF controls** with alert system for low moisture levels.

INTERNSHIP

Web Developer Intern – ExLife Solutions

Aug 2024 – Sep 2024

- Designed and developed responsive web application interfaces using modern frontend technologies, ensuring compatibility across desktop and mobile devices.
- Built and integrated RESTful APIs to enable seamless communication between frontend and backend systems.
- Implemented reusable UI components and followed core UI/UX principles to improve user interaction and accessibility.
- Optimized API calls and frontend rendering performance, reducing response time and improving overall application responsiveness.

Software Developer Intern – TAP Academy

Jan 2026 – Present

- Developing and maintaining scalable applications using Java with strong focus on object-oriented programming, clean architecture, and industry-standard coding practices.
- Implementing backend functionalities using Core Java concepts including collections, exception handling, multithreading, JDBC, and file handling.
- Contributing to full-stack development by integrating frontend interfaces with backend services and databases.
- Writing optimized SQL queries and working with relational databases for efficient data storage and retrieval.

EDUCATION

DMI College of Engineering

2022 – 2026

B.Tech in Information Technology, CGPA: 7.5

India

Little Flower Matriculation Higher Secondary School

2021 – 2022

HSC, Percentage: 68.8%

India

Little Flower Matriculation Higher Secondary School

2019 – 2020

SSLC, Percentage: 72.6%

India
